Contents

NUMBER 1 **FEBRUARY**

1 *J. Michael Thresh.* New Honorary Member of BSPP

Original Articles

2 *J. Ndunguru, J. P. Legg, I. B. F. Fofana, T. A. S. Aveling, G. Thompson & C. M. Fauquet.* Identification of a defective molecule derived from DNA-A of the bipartite begomovirus of *East African cassava mosaic virus*

11 *S. Matic, M. Al-Rwahnih & A. Myrta.* Diversity of *Plum pox virus* isolates in Bosnia and Herzegovina

18 *R. Tedeschi, V. Ferrato, J. Rossi & A. Alma.* Possible phytoplasma transovarial transmission in the psyllids *Cacopsylla melanoneura* and *Cacopsylla pruni*

25 *S. Srivastava, V. Singh, P. S. Gupta, O. K. Sinha & A. Baitha.* Nested PCR assay for detection of sugarcane grassy shoot phytoplasma in the leafhopper vector *Deltocephalus vulgaris*: a first report

29 *K. E. Mounsey, C. Streten & K. S. Gibb.* Sequence characterization of four putative membrane-associated proteins from sweet potato little leaf strain V4 phytoplasma

36 *S. Priou, L. Gutarra & P. Aley.* An improved enrichment broth for the sensitive detection of *Ralstonia solanacearum* (biovars 1 and 2A) in soil using DAS–ELISA

46 *P. J. Hunter & J. D. Taylor.* Patterns of interaction between isolates of three pathovars of *Pseudomonas syringae* and accessions of a range of host and nonhost legume species

54 *L. S. Arraiano, P. A. Brading, F. Dedryver & J. K. M. Brown.* Resistance of wheat to septoria tritici blotch (*Mycosphaerella graminicola*) and associations with plant ideotype and the 1BL-1RS translocation

62 *I. P. Armstead, J. A. Harper, L. B. Turner, L. Skot, I. P. King, M. O. Humphreys, W. G. Morgan, H. M. Thomas & H. W. Roderick.* Introgression of crown rust (*Puccinia coronata*) resistance from meadow fescue (*Festuca pratensis*) into Italian ryegrass (*Lolium multiflorum*): genetic mapping and identification of associated molecular markers

68 *A. Pawelec, C. Dubourg & M. Briard.* Evaluation of carrot resistance to alternaria leaf blight in controlled environments

73 *R. M. V. B. C. Leite, L. Amorim & A. Bergamin Filho.* Relationships of disease and leaf area variables with yield in the *Alternaria helianthi*–sunflower pathosystem

82 *C. Boyle & D. R. Walters.* Saccharin-induced protection against powdery mildew in barley: effects on growth and phenylpropanoid metabolism

92 *I. Omar, T. M. O'Neill & S. Rossall.* Biological control of fusarium crown and root rot of tomato with antagonistic bacteria and integrated control when combined with the fungicide carbendazim

100 *F. Neri, M. Mari & S. Brigati.* Control of *Penicillium expansum* by plant volatile compounds

106 *S. Purkayastha, B. Kaur, N. Dilbaghi & A. Chaudhury.* Characterization of *Macrophomina phaseolina*, the charcoal rot pathogen of cluster bean, using conventional techniques and PCR-based molecular markers

117 *A. Menkis, R. Vasiliauskas, A. F. S. Taylor, E. Stenström, J. Stenlid & R. Finlay.* Fungi in decayed roots of conifer seedlings in forest nurseries, afforested clear-cuts and abandoned farmland

130 *J. M. Sakamoto & T. R. Gordon.* Factors influencing infection of mechanical wounds by *Fusarium circinatum* on Monterey pines (*Pinus radiata*)

137 *L. Zhou, Q. Hu, A. Johansson & C. Dixelius. Verticillium longisporum* and *V. dahliae*: infection and disease in *Brassica napus*

145 *T. Asano & K. Kageyama.* Growth and movement of secondary plasmodia of *Plasmodiophora brassicae* in turnip suspension-culture cells

152 Book reviews

NUMBER 2 **APRIL**

Review

155 *P. A. G. Elmer & T. Reglinski.* Biosuppression of *Botrytis cinerea* in grapes

Original Articles

178 *E. A. Achuo, E. Prinsen & M. Höfte.* Influence of drought, salt stress and abscisic acid on the resistance of tomato to *Botrytis cinerea* and *Oidium neolycopersici*

187 *B. B. A. Dias, W. G. Cunha, L. S. Morais, G. R. Vianna, E. L. Rech, G. de Capdeville & F. J. L. Aragão.* Expression of an oxalate decarboxylase gene from *Flammulina* sp. in transgenic lettuce (*Lactuca sativa*) plants and resistance to *Sclerotinia sclerotiorum*

194 *K. R. Everett & J. Rees-George.* Reclassification of an isolate of *Guignardia citricarpa* from New Zealand as *Guignardia mangiferae* by sequence analysis

200 *M. R. Sosnowski, E. S. Scott & M. D. Ramsey.* Survival of *Leptosphaeria maculans* in soil on residues of *Brassica napus* in South Australia

207 *B. Nel, C. Steinberg, N. Labuschagne & A. Viljoen.* Isolation and characterization of nonpathogenic *Fusarium oxysporum* isolates from the rhizosphere of healthy banana plants

217 *B. Nel, C. Steinberg, N. Labuschagne & A. Viljoen.* The potential of nonpathogenic *Fusarium oxysporum* and other biological control organisms for suppressing fusarium wilt of banana

224 *H. Wang, S. F. Hwang, F. Eudes, K. F. Chang, R. J. Howard & G. D. Turnbull.* Trichothecenes and aggressiveness of *Fusarium graminearum* causing seedling blight and root rot in cereals

231 *T. R. Gordon, S. C. Kirkpatrick, B. J. Aegerter, D. L. Wood & A. J. Storer.* Susceptibility of Douglas fir (*Pseudotsuga menziesii*) to pitch canker, caused by *Gibberella circinata* (anamorph = *Fusarium circinatum*)

238 *G. Tarekegn, N. W. McLaren & W. J. Swart.* Effects of weather variables on grain mould of sorghum in South Africa

246 *M. H. Nam, S. K. Jeong, Y. S. Lee, J. M. Choi & H. G. Kim.* Effects of nitrogen, phosphorus, potassium and calcium nutrition on strawberry anthracnose

250 *G. Corkidi, K. A. Balderas-Ruíz, B. Taboada, L. Serrano-Carreón & E. Galindo.* Assessing mango anthracnose using a new three-dimensional image-analysis technique to quantify lesions on fruit

258 *S. K. Yuan, X. L. Liu, N. G. Si, J. Dong, B. G. Gu & H. Jiang.* Sensitivity of *Phytophthora infestans* to flumorph: *in vitro* determination of baseline sensitivity and the risk of resistance

264 *L. Ruiz, D. Janssen, G. Martín, L. Velasco, E. Segundo & I. M. Cuadrado.* Analysis of the temporal and spatial disease progress of *Bemisia tabaci*-transmitted *Cucurbit yellow stunting disorder virus* and *Cucumber vein yellowing virus* in cucumber

276 *I. N. Boubourakas, A. D. Avgelis, P. E. Kyriakopoulou & N. I. Katis.* Occurrence of yellowing viruses (*Beet pseudo-yellows virus, Cucurbit yellow stunting disorder virus* and *Cucurbit aphid-borne yellows virus*) affecting cucurbits in Greece

New Disease Reports

284 *V. Chandel, S. Kulshrestha, V. Hallan & A. A. Zaidi.* Natural infection of *Ornithogalum mosaic virus* on *Iris* from India

284 *A. Mehra, V. Hallan, Brij Lal & A. A. Zaidi.* Occurrence of *Chilli veinal mottle virus* in Himalayan butterfly bush (*Buddleja crispa*)

285 *A. H. Malik, S. Mansoor, S. Iram, R. W. Briddon & Y. Zafar.* A severe outbreak of melon yellow mosaic disease caused by *Zucchini yellow mosaic virus* in the Punjab province of Pakistan

285 *M. S. Haider, M. Tahir, S. Latif & R. W. Briddon* First report of *Tomato leaf curl New Delhi virus* infecting *Eclipta prostrata* in Pakistan

286 *R. W. Briddon, S. E. Bull & I. D. Bedford.* Occurrence of *Sweet potato leaf curl virus* in Sicily

286 *M. E. Roye, A. M. Collins & D. P. Maxwell.* First report of a begomovirus associated with the common weed *Jatropha gossypifolia* in Jamaica

287 *S. Winter, N. Shahraeen, M. Koerbler & D.-E. Lesemann.* Characterization of Tomato fruit yellow ring virus: a new *Tospovirus* species infecting tomato in Iran

287 *G. Tadu, S. Winter, A. M. A. Gadelseed & G. A. Dafalla.* Association of *East African cassava mosaic virus*-Uganda (EACMV-UG) with cassava mosaic disease in Sudan

288 *K. S. Ravi, A. S. Kitkaru & S. Winter. Iris yellow spot virus* in onions: a new tospovirus record from India

288 *I. Robène-Soustrade, B. Hostachy, M. Roux-Cuvelier, J. Minatchy, M. Hédont, R. Pallas, A. Couteau, N. Cassam & G. Wuster.* First report of *Iris yellow spot virus* in onion bulb- and seed-production fields in Réunion Island

289 *H. Delatte, F. Naze, J. S. Cottineau, P. Lefeuvre, B. Hostachy, B. Reynaud & J. M. Lett.* Occurrence of *Tomato chlorosis virus* on tomato in Réunion Island

289 *M. S. Khan, S. K. Raj & R. Singh.* First report of *Tomato leaf curl New Delhi virus* infecting chilli in India

290 *M. N. Maruthi, A. R. Rekha, S. N. Alam, K. A. Kader, A. Cork & J. Colvin.* A novel begomovirus with distinct genomic and phenotypic features infects tomato in Bangladesh

290 *M. N. Maruthi, A. R. Rekha, M. R. Govindappa, J. Colvin & V. Muniyappa.* A distinct begomovirus causes Indian dolichos yellow mosaic disease

291 *J. F. Huang & X. P. Zhou.* First report of *Papaya leaf curl China virus* infecting *Corchoropsis timentosa* in China

291 *P. John, P. N. Sivalingam, N. Kumar, A. Mishra, Y. S. Ahlawat & V. G. Malathi.* A new begomovirus associated with yellow mosaic disease of *Clerodendron inerme*

292 *M. Tessitori, V. Masenga & C. Marzachì.* First report of a phytoplasma associated with abnormal proliferation of cladodes in cactus pear (*Opuntia ficus-indica*) in Italy

292 *M. Narvaez, I. Cordova, R. Orellana, N. A. Harrison & C. Oropeza.* First report of a lethal yellowing phytoplasma in *Thrinax radiata* and *Coccothrinax readii* palms in the Yucatan Peninsula of Mexico

293 *M. Kamińska & H. Śliwa.* First report of a decline of ashleaf maple (*Acer negundo*) in Poland, associated with '*Candidatus* Phytoplasma asteris'

293 *B. Li, G. L. Xie & J. Swings.* First report of leaf spot caused by *Xanthomonas campestris* on poinsettia in China

294 *V. Ndungo, S. Eden-Green, G. Blomme, J. Crozier & J. J. Smith.* Presence of banana xanthomonas wilt (*Xanthomonas campestris* pv. *musacearum*) in the Democratic Republic of Congo (DRC)

294 *V. Marín-Cevada, V. H. Vargas, M. Juárez, V. G. López, G. Zagada, S. Hernández, A. Cruz, J. Caballero-Mellado, L. López-Reyes, T. Jiménez-Salgado, M. Carcaño-Montiel & L. E. Fuentes-Ramírez.* Presence of *Pantoea citrea*, causal agent of pink disease, in pineapple fields in Mexico

295 *D. J. Soares, D. F. Parreira & R. W. Barreto. Plasmopara australis* newly recorded from Brazil on the new host *Luffa cylindrica*

295 *G. Lucero, A. M. Vettraino, P. Pizzuolo & A. Vannini.* First report of *Phytophthora nicotianae* on jojoba in Argentina

296 *A. O. Cerqueira, E. D. M. N. Luz & J. T. De Souza.* First record of *Phytophthora tropicalis* causing leaf blight and fruit rot on breadfruit in Brazil

296 *H. Boyle, F. Klenke & U. Richter.* Rediscovery of *Erysiphe clandestina* on elm (*Ulmus*) in Germany

297 *T. Jankovics & O. Szentiványi.* First report of powdery mildew on *Sedum alboroseum* in Europe

297 *S. Y. Liu, S. Takamatsu, L. L. Yang, X. M. Wang, D. Lu & L. Luo.* First report of *Neoerysiphe galeopsidis* on *Althaea rosea*

298 *M. T. Mas, A. M. C. Verdú & J. Girbal.* New report of loose smut (*Ustilago syntherismae*) on *Digitaria sanguinalis* in Spain

298 *A. Pérez-Sierra, L. A. Álvarez, B. Henricot, J. García-Jiménez & J. Armengol. Cylindrocladium pauciramosum* causes root and collar rot of *Polygala myrtifolia* in Spain

299 *D. Jurc & N. Ogris.* First reported outbreak of charcoal disease caused by *Biscogniauxia mediterranea* on Turkey oak in Slovenia
299 *D. Jurc, N. Ogris, T. Grebenc & H. Kraigher.* First report of *Botryosphaeria dothidea* causing bark dieback of European hop hornbeam in Slovenia
300 *K. Elena.* First report of *Phomopsis asparagi* causing stem blight of asparagus in Greece
300 *B. A. Halfeld-Vieira & K. L. Nechet* Black rot in lettuce: a new disease caused by *Ceratocystis fimbriata* in hydroponic culture in Brazil
301 *A. Sattar, M. Alam, A. Khaliq, R. S. Shukla & S. P. S. Khanuja.* First report of leaf blight of *Chlorophytum borivilianum* caused by *Colletotrichum capsici* in northern India
301 *M. Alam, A. Sattar, Abdul-Khaliq, A. Samad & S. P. S. Khanuja.* A root rot and wilt disease of pyrethrum (*Chrysanthemum cineraefolium*) caused by *Rhizoctonia solani* AG-4 in the north Indian plains
302 *A. Kamalakannan, L. Mohan, V. Valluvaparidasan, P. Mareeswari & R. Karuppiah.* First report of Macrophomina root rot (*macrophomina phaseolina*) on medicinal coleus (*Coleus forskohlii*) in India
302 *M. L. Jeeva, V. Hegde, B. Vimala, T. Makeshkumar, R. R. Nair & S. Edison.* First report of *Rhizoctonia solani* causing blight on yam bean (*Pachyrrhizus erosus*) in India
303 *A. E. Perelló & M. N. Sisterna.* Leaf blight of wheat caused by *Alternaria triticina* in Argentina
303 *B. N. Chakraborty, R. Das-Biswas & M. Sharma* *Alternaria alternata* – a new foliar fungal pathogen of tea in North Bengal, India
304 *H. E. Palmucci.* *Fusarium oxysporum*-causal agent of wilt on crops of *Phoenix canariensis* in Argentina
304 *B. A. Halfeld-Vieira & K. L. Nechet.* First report of *Pestalotiopsis macrochaeta* on *Carapa guianensis*
305 *M. Todorova.* First report of tan spot caused by *Pyrenophora tritici-repentis* (anamorph *Drechslera tritici-repentis*) in Bulgaria
305 *M. J. Soleimani & S. Kazemi.* First report of *Bipolaris sacchari* causing wheat stem-base disease in Iran
306 *W. H. Chung, J. P. Abe, Y. Yamaoka, J. W. Haung & M. Kakishima.* First report of plumeria rust disease caused by *Coleosporium plumeriae* in Taiwan
306 *C. A. Entwistle, M. W. Olsen & D. M. Bigelow.* First report of a *Labyrinthula* spp. causing rapid blight of *Agrostis capillaris* and *Poa annua* on amenity turfgrass in the UK
307 Book Reviews

NUMBER 3 **JUNE**

311 *A. K. Lees, R. Wattier, D. S. Shaw, L. Sullivan, N. A. Williams & D. E. L. Cooke.* Novel microsatellite markers for the analysis of *Phytophthora infestans* populations
320 *L. R. Cooke, D. J. Carlisle, C. Donaghy, M. Quinn, F. M. Perez & K. L. Deahl.* The Northern Ireland *Phytophthora infestans* population 1998–2002 characterized by genotypic and phenotypic markers
331 *J. Y. Wong & P. Jeffries.* Diversity of pathogenic *Fusarium* populations associated with asparagus roots in decline soils in Spain and the UK
343 *E. Mwenje, B. D. Wingfield, M. P. A. Coetzee, H. Nemato & M. J. Wingfield.* *Armillaria* species on tea in Kenya identified using isozyme and DNA sequence comparisons
351 *G. Woldeab, C. Fininsa, H. Singh & J. Yuen.* Virulence spectrum of *Puccinia hordei* in barley production systems in Ethiopia
358 *R. Jaime-Garcia & P. J. Cotty.* Spatial distribution of *Aspergillus flavus* and its toxigenic strains on commercial cottonseed from south Texas and its relationship to aflatoxin contamination
367 *N. Moriura, Y. Matsuda, W. Oichi, S. Nakashima, T. Hirai, T. Nonomura, K. Kakutani, S. Kusakari, K. Higashi & H. Toyoda.* An apparatus for collecting total conidia of *Blumeria graminis* f.sp. *hordei* from leaf colonies using electrostatic attraction
375 *J. P. Clarkson, A. Scruby, A. Mead, C. Wright, B. Smith & J. M. Whipps.* Integrated control of *Allium* white rot with *Trichoderma viride*, tebuconazole and composted onion waste
387 *Z. Karolewski, B. D. L. Fitt, A. O. Latunde-Dada, S. J. Foster, A. D. Todd, K. Downes & N. Evans.* Visual and PCR assessment of light leaf spot (*Pyrenopeziza brassicae*) on winter oilseed rape (*Brassica napus*) cultivars
401 *S. Y. Liu, Z. Liu, B. D. L. Fitt, N. Evans, S. J. Foster, Y. J. Huang, A. O. Latunde-Dada & J. A. Lucas.* Resistance to *Leptosphaeria maculans* (phoma stem canker) in *Brassica napus* (oilseed rape) induced by *L. biglobosa* and chemical defence activators in field and controlled environments
413 *C. S. Young, J. M. Thomas, S. R. Parker & N. D. Paveley.* Relationship between leaf emergence and optimum spray timing for leaf blotch (*Rhynchosporium secalis*) control on winter barley
421 *D. M. Ferrin & M. E. Stanghellini.* Effect of water potential on mycelial growth and perithecial production of *Monosporascus cannonballus in vitro*
427 *C. Cooper, T. Crowther, B. M. Smith, S. Isaac & H. A. Collin.* Assessment of the response of carrot somaclones to *Pythium violae*, causal agent of cavity spot
433 *V. Mitter, M. C. Zhang, C. J. Liu, R. Ghosh, M. Ghosh & S. Chakraborty.* A high-throughput glasshouse bioassay to detect crown rot resistance in wheat germplasm
442 *N. Verma, L. MacDonald & Z. K. Punja.* Inoculum prevalence, host infection and biological control of *Colletotrichum acutatum*: causal agent of blueberry anthracnose in British Columbia
451 *M. Scortichini, E. Natalini & U. Marchesi.* Evidence for separate origins of the two *Pseudomonas avellanae* lineages
458 *S. B. Mukasa, P. R. Rubaihayo & J. P. T. Valkonen.* Interactions between a crinivirus, an ipomovirus and a potyvirus in coinfected sweetpotato plants
468 Book Reviews

NUMBER 4 **AUGUST**

469 *J. Moldenhauer, B. M. Moerschbacher & A. J. van der Westhuizen.* Histological investigation of stripe rust

(*Puccinia striiformis* f.sp. *tritici*) development in resistant and susceptible wheat cultivars
475 *L. A. Boyd, P. H. Smith & N. Hart.* Mutants in wheat showing multipathogen resistance to biotrophic fungal pathogens
485 *D. Mercado Vergnes, M.-E. Renard, E. Duveiller & H. Maraite.* Identification of *Alternaria* spp. on wheat by pathogenicity assays and sequencing
494 *O. A. Akinsanmi, D. Backhouse, S. Simpfendorfer & S. Chakraborty.* Genetic diversity of Australian *Fusarium graminearum* and *F. pseudograminearum*
505 *L. Amrani & M.-F. Corio-Costet.* A single nucleotide polymorphism in the β-tubulin gene distinguishing two genotypes of *Erysiphe necator* expressing different symptoms on grapevine
513 *J. J. Fernandes, M. G. Carvalho, E. C. Andrade, S. H. Brommonschenkel, E. P. B. Fontes & F. M. Zerbini.* Biological and molecular properties of *Tomato rugose mosaic virus* (ToRMV), a new tomato-infecting begomovirus from Brazil
523 *M. Grisoni, M. Moles, K. Farreyrol, L. Rassaby, R. Davis & M. Pearson.* Identification of potyviruses infecting vanilla by direct sequencing of a short RT-PCR amplicon
530 *Y.-A. Lee, K.-P. Chen & Y.-W. Hsu.* Characterization of *Erwinia chrysanthemi*, the soft-rot pathogen of white-flowered calla lily, based on pathogenicity and PCR-RFLP and PFGE analyses
537 *S. Hase, A. Shimizu, K. Nakaho, S. Takenaka & H. Takahashi.* Induction of transient ethylene and reduction in severity of tomato bacterial wilt by *Pythium oligandrum*
544 *U. Yermiyahu, I. Shamai, R. Peleg, N. Dudai & D. Shtienberg.* Reduction of *Botrytis cinerea* sporulation in sweet basil by altering the concentrations of nitrogen and calcium in the irrigation solution
553 *L. Fayolle, R. Noble, E. Coventry, S. Aime & C. Alabouvette.* Eradication of *Plasmodiophora brassicae* during composting of wastes
559 *H. Long, X. Wang & J. Xu.* Molecular cloning and life-stage expression pattern of a new chorismate mutase gene from the root-knot nematode *Meloidogyne arenaria*

New Disease Reports

564 *S.-F. Li, R. Guo, M. Tsuji & T. Sano.* Two grapevine viroids in China and the possible detection of a third
564 *Y. Zhou, R. Guo, Z. Cheng, T. Sano & S.-F. Li.* First report of *Hop stunt viroid* from *Prunus persica* with dapple fruit symptoms in China
565 *S.-F. Li, Q. Su, R. Guo, M. Tsuji & T. Sano.* First report of *Coleus blumei* viroid from coleus in China
565 *J. Aramburu, L. Galipienso, T. Tornos & M. Matas.* First report of *Eggplant mottled dwarf virus* in mainland Spain
566 *I. Mavrič, M. Tušek Žnidarič, M. Virščeк Marn, P. Dolničar, N. Mehle, D.-E. Lesemann & M. Ravnikar.* First report of *Eggplant mottled dwarf virus* in potato and tomato in Slovenia
566 *C.-Y. Wang & Y.-C. Chang.* First identification of *Alstroemeria mosaic virus* in Taiwan
567 *L. C. Papayiannis, N. Ioannou, C. I. Dovas, V. I. Maliogka & N. I. Katis.* First report of *Tomato chlorosis virus* on tomato crops in Cyprus
567 *J. M. Lett, F. Lefeuvre, F. Naze, H. Delatte, Y. Mohamed-Ali & B. Reynaud.* First report of *Tobacco leaf curl Zimbabwe virus* affecting tobacco in the Comoros Archipelago
568 *S. Davino, S. Cugnata & M. G. Bellardi. Globularia nudicaulis*, a new host for *Cucumber mosaic virus*
568 *I E. Tzanetakis, R. C. Gergerich & R. R. Martin.* A new *Ilarvirus* found in rose
569 *D. Ladhalakshmi, M. Ramiah, T. Ganapathy, M. K. Reddy, K. Salabeddin, B. Merin & A. Kamalakannan.* First report of the natural occurrence of *Tobacco streak virus* on blackgram (*Vigna mungo*)
569 *S. G. Ribeiro, A. K. Inoue-Nagata, J. Daniels & A. C. de Ávila.* Potato deforming mosaic disease is caused by an isolate of Tomato yellow vein streak virus
570 *Y. M. Morán, P. L. Ramos, M. Domínguez, A. D. Fuentes, Y. Sánchez & J. A. Crespo.* Tobacco leaf curl Cuba virus, a new begomovirus infecting tobacco (*Nicotiana tabacum*) in Cuba
570 *M. Tahir & M. S. Haider* First report of a begomovirus associated with leaf curl disease of bell pepper in Pakistan
571 *S. A. Weller & T. M. O'Neill.* Crown gall in organically grown UK tomato caused by tumorigenic strains of *Agrobacterium radiobacter*
571 *D. E. Stead, H. Stanford, A. Aspin & S. A. Weller.* First record of *Pseudomonas syringae* pv. *viburni* in the UK
572 *J. A. Khan, P. Srivastava & S. K. Singh.* Identification of a '*Candidatus* Phytoplasma asteris'-related strain associated with spike disease of sandal (*Santalum album*) in India
572 *I. Saadi, A. Namsi, O. Ben Mahamoud, M. L. Takrouni, A. Zouba, J. M. Bové & N. Duran-Vila.* First report of 'maladie des feuilles cassantes' (brittle leaf disease) of date palm in Algeria
573 *A. Belisario, G. Gilli & M. Maccaroni.* First report of *Phytophthora hedraiandra* on *Viburnum tinus* in Italy
573 *A. M. Vettraino, L. Antonacci, L. Flamini, P. Nipoti, E. Rossini, M. Righi & A. Vannini.* First report of crown rot of *Photinia fraseri* caused by *Phytophthora cactorum*
574 *E. Moralejo, L. Belbahri, G. Calmin, F. Lefort, J. A. García & E. Descals.* First report of *Phytophthora hedraiandra* on *Viburnum tinus* in Spain
574 *C. R. Lane, J. M. Scrace & D. Hutchinson.* First record of the downy mildew *Peronospora myosotidis* on *Brunnera macrophylla* in the UK
575 *R. T. A. Cook, B. Henricot & P. Beales.* First report of *Neoerysiphe galeopsidis* on *Acanthus spinosus* in the UK
575 *L. Vajna.* Powdery mildew caused by *Erysiphe carpinicola* on *Carpinus betulus* in Hungary: the first European report
576 *L. Vajna & Z. Rozsnyay.* First report of powdery mildew caused by *Podosphaera pannosa* on a new host – sour cherry – in Hungary
576 *M. E. R. Sijaona, R. H. Reeder & J. M. Waller.* Cashew leaf and nut blight – a new disease of cashew in Tanzania caused by *Cryptosporiopsis* spp.
577 *R. W. Barreto, F. B. Rocha & F. A. Ferreira* First record of natural infection of *Marlierea edulis* by the eucalyptus canker fungus *Chrysoporthe cubensis*

577 *D. Jurc, N. Ogris, B. Slippers & J. Stenlid.* First report of eutypella canker of *Acer pseudoplatanus* in Europe
578 *M. Golmohammadi, M. Andrew, T. L. Peever, N. A. Peres & L. W. Timmer.* Brown spot of tangerine hybrid cultivars Minneola, Page and Fortune caused by *Alternaria alternata* in Iran
578 *H. Ozgonen & G. Karaca.* First report of *Alternaria mali* causing necrotic leaf spot of apples in Turkey
579 *P. Raja, A. V. R. Reddy & U. S. Allam.* First report of *Alternaria tenuissima* causing leaf spot and fruit rot on eggplant (*Solanum melongena*) in India
579 *A. Kamalakannan, V. Valluvaparidasan, R. Rabindran, K. Salaheddin & D. Ladhalakshmi.* First report of Bipolaris leaf blight of coconut (*Cocos nucifera*) caused by *Bipolaris incurvata* in mainland India
580 *J. L. da Silva, D. J. Soares & R. W. Barreto.* Eye-spot of *Rudbeckia laciniata* caused by *Corynespora cassiicola* in Brazil
580 *A. Infantino, N. Pucci, G. Di Giambattista & L. Tomassoli. Capparis spinosa* – a new host for *Sclerotium rolfsii*
581 *S. M. Wolcan, G. M. Dal Bello & M. Sisterna.* Cercospora leaf spot on *Impatiens* spp. in Argentina
581 *I. Camele, C. Marcone, A. Caponero, A. Ambrico, C. Nigro & G. L. Rana.* First report of *Verticillium dahliae* causing verticillium wilt of *Solanum aethiopicum* in Italy
582 *C. R. Lane, P. A. Beales, B. Henricot & A Holden.* First record of *Cylindrocladium pauciramosum* on *Ceanothus* in the UK
582 *A. Solla, C. Nasmith, M. C. Dacasa, P. Fuentes-Utrilla, M. Hubbes & L. Gil.* First report of *Ophiostoma novo-ulmi* ssp. *novo-ulmi* on elms in the Iberian Peninsula
583 *J. G. Valdez, M. A. Makuch, A. F. Ordovini, R. W. Masuelli, D. P. Overy & R. J. Piccolo.* First report of *Penicillium allii* as a field pathogen of garlic (*Allium sativum*)
583 *D. Prodorutti, L. Palmieri, D. Gobbin & I. Pertot* First report of *Armillaria gallica* on highbush blueberry (*Vaccinium corymbosum*) in Italy
584 *W. Phillips-Mora, J. Cawich, W. Garnett & M. C. Aime.* First report of frosty pod rot (moniliasis disease) caused by *Moniliophthora roreri* on cacao in Belize
584 *W. Phillips-Mora, A. Coutiño, C. F. Ortiz, A. P. López, J. Hernández & M. C. Aime.* First report of *Moniliophthora roreri* causing frosty pod rot (moniliasis disease) of cocoa in Mexico

NUMBER 5 **OCTOBER**

British Society for Plant Pathology Presidential Address 2005
585 *P. E. Russell.* The development of commercial disease control

Original Articles
595 *N. J. Spence, J. Basham, R. A. Mumford, G. Hayman, R. Edmondson & D. R. Jones.* Effect of *Pepino mosaic virus* on the yield and quality of glasshouse-grown tomatoes in the UK
607 *J. Susaimuthu, I. E. Tzanetakis, R. C. Gergerich & R. R. Martin.* Yellow vein-affected blackberries and the presence of a novel *Crinivirus*
614 *G. Marchi, A. Sisto, A. Cimmino, A. Andolfi, M. G. Cipriani, A. Evidente & G. Surico.* Interaction between *Pseudomonas savastanoi* pv. *savastanoi* and *Pantoea agglomerans* in olive knots
625 *D. S. Park, J. K. Shim, J. S. Kim, B. Y. Kim, M. J. Kang, Y. J. Seol, J. H. Hahn, R. Shrestha, C. K. Lim, S. J. Go & H. G. Kim.* PCR-based sensitive and specific detection of *Pectobacterium atrosepticum* using primers based on *Rhs* family gene sequences
630 *Z. Wang, Y. Yin, H. Hu, Q. Yuan, G. Peng & Y. Xia.* Development and application of molecular-based diagnosis for '*Candidatus* Liberibacter asiaticus', the causal pathogen of citrus huanglongbing
639 *A. Marefat, E. S. Scott, K. Ophel-Keller & M. Sedgley.* Genetic, phenotypic and pathogenic diversity among xanthomonads isolated from pistachio (*Pistacia vera*) in Australia
650 *Y. Núñez, J. Gallego, F. Ponz & R. Raposo.* Analysis of population structure of *Erysiphe necator* using AFLP markers
657 *M. Dalla Pria, R. C. S. Christiano, E. L. Furtado, L. Amorim & A. Bergamin Filho.* Effect of temperature and leaf wetness duration on infection of sweet oranges by Asiatic citrus canker
664 *Y. Zhao, B. W. Grout & X. Xu.* Effects of temperature on germination and hyphal growth from conidia of *Ramularia rhei* and *Ascochyta rhei*, causing spot diseases of rhubarb (*Rheum rhaponticum*)
671 *T. J. Onyeka, D. Pétro, G. Ano, S. Etienne & S. Rubens.* Resistance in water yam (*Dioscorea alata*) cultivars in the French West Indies to anthracnose disease based on tissue culture-derived whole-plant assay
679 *K. Gupta, D. Prem, N. I. Nashaat & A. Agnihotri.* Response of interspecific *Brassica juncea/Brassica rapa hybrids* and their advanced progenies to *Albugo candida* (white blister)
690 *H. Friberg, J. Lagerlöf & B. Rämert.* Usefulness of nonhost plants in managing *Plasmodiophora brassicae*
696 *R. J. Gutteridge, J. F. Jenkyn & G. L. Bateman.* Effects of different cultivated or weed grasses, grown as pure stands or in combination with wheat, on take-all and its suppression in subsequent wheat crops
705 *P. Castillo, A. I. Nico, C. Azcón-Aguilar, C. Del Río Rincón, C. Calvet, & R. M. Jiménez-Díaz.* Protection of olive planting stocks against parasitism of root-knot nematodes by arbuscular mycorrhizal fungi
714 Corrigendum

NUMBER 6 **DECEMBER**

715 *V. I. Mavroeidi & M. W. Shaw.* Effects of fungicide dose and mixtures on selection for triazole resistance in *Mycosphaerella graminicola* under field conditions
726 *L. S. Arraiano & J. K. M. Brown.* Identification of isolate-specific and partial resistance to septoria tritici blotch in 238 European wheat cultivars and breeding lines
739 *H. X. Ma, K. M. Zhang, L. Gao, G. H. Bai, H. G. Chen, Z. X. Cai & W. Z. Lu.* Quantitative trait

loci for resistance to fusarium head blight and deoxynivalenol accumulation in Wangshuibai wheat under field conditions

746 *B. Wang, C. L. Brubaker, W. Tate, M. J. Woods, B. A. Matheson & J. J. Burdon.* Genetic variation and population structure of *Fusarium oxysporum* f.sp. *vasinfectum* in Australia

756 *M. A. G. Dela Paz, P. H. Goodwin, A. K. Raymundo, E. Y. Ardales & C. M. Vera Cruz.* Phylogenetic analysis based on ITS sequences and conditions affecting the type of conidial germination of *Bipolaris oryzae*

766 *T. R. Gordon, S. C. Kirkpatrick, J. Hansen & D. V. Shaw.* Response of strawberry genotypes to inoculation with isolates of *Verticillium dahliae* differing in host origin

770 *Z. G. Zhang, Y. Q. Li, H. Fan, Y. C. Wang & X. B. Zheng.* Molecular detection of *Phytophthora capsici* in infected plant tissues, soil and water

776 *G. M. Tahi, B. I. Kébé, A. Sangare, F. Mondeil, C. Cilas & A. B. Eskes.* Foliar resistance of cacao (*Theobroma cacao*) to *Phytophthora palmivora* as an indicator of pod resistance in the field: interaction of cacao genotype, leaf age and duration of incubation

783 *J. Crozier, S. E. Thomas, M. C. Aime, H. C. Evans & K. A. Holmes.* Molecular characterization of fungal endophytic morphospecies isolated from stems and pods of *Theobroma cacao*

792 *M. Moalemiyan, A. Vikram, A. C. Kushalappa & V. Yaylayan.* Volatile metabolite profiling to detect and discriminate stem-end rot and anthracnose diseases of mango fruits

803 *C. Nisbet, I. Butzonitch, M. Colavita, J. Daniels, J. Martin, R. Burns, E. George, M. A. Y. Akhond, V. Mulholland & C. J. Jeffries.* Characterization of Potato rough dwarf virus and Potato virus P: distinct strains of the same viral species in the genus *Carlavirus*

New Disease Reports

813 *K. J. D. Hughes, P. M. Giltrap, V. C. Barton, E. Hobden, J. A. Tomlinson & P. Barber.* On-site real-time PCR detection of *Phytophthora ramorum* causing dieback of *Parrotia persica* in the UK

813 *A. F. Dos Santos, E. D. M. N. Luz & J. T. De Souza.* First report of *Phytophthora boehmeriae* on black wattle in Brazil

814 *H. D. Shin, H. J. Jee & C. K. Shim.* First report of powdery mildew caused by *Podosphaera fusca* on *Lactuca sativa* in Korea

814 *L. Vajna.* First report of powdery mildew on *Caragana arborescens* in Hungary caused by *Erysiphe palczewskii*

815 *L. Kakalíková, E. Jankura & A. Šrobárová. Phaeomoniella chlamydospora*: causal agent of vine decline (*Vitis vinifera*) in the vineyards of Slovakia

815 *M. N. Kazempour, S. A. Khodaparast, M. Arefipour, M. Salehi, B. Amanzadeh, M. Ramazanie & B. K. Shiraz.* Occurrence of *Cryphonectria parasitica* the causal agent of chestnut blight in Iran

816 *M. Daami-Remadi, H. Jabnoun-Khiareddine, D. J. Barbara, F. Ayed & M. El Mahjoub* First report of *Verticillium dahliae* race 2 in Tunisia

816 *J. H. Zhou, B. Du, C. Q. Liu, S. C. Yang, Y. Y. Wang & Y. Y. Zhu.* First report of *Fusarium sporotrichioides* causing root rot of *Erigeron breviscapus* in China

817 *S. K. Raj, M. S. Khan, S. K. Snehi, S. Srivastava & H. B. Singh.* First report of *Tomato leaf curl Karnatka virus* infecting soybean in India

817 *Y. Martinez Zubiaur, Y. Muñiz Martín & M. Quiñones Pantoja.* A new begomovirus infecting pepper plants in Cuba

818 *J. Qazi, S. Mansoor, I. Amin, M. Y. Awan, R. W. Briddon & Y. Zafar.* First report of *Mungbean yellow mosaic India virus* on mothbean in Pakistan

818 *G. Parrella, A. De Stradis & M. Giorgini. Sweet potato feathery mottle virus* is the casual agent of sweetpotato virus disease in Italy

819 *C.-H. Huang & Y.-C. Chang.* Basella rugose mosaic virus, a new potyvirus infecting *Basella rubra*

819 *R. A. Mumford, B. Jarvis, V. Harju, N. Boonham & A. Skelton.* First report of *Broad bean wilt virus 2* in the UK: findings in foxglove and salvia

820 *S. Winter, A. Hamacher, J. Engelmann & D.-E. Lesemann.* Angelonia flower mottle, a new disease of *Angelonia angustifolia* caused by a hitherto unknown carmovirus

820 *T. Wei, M. N. Pearson & D. Cohen.* First report of *Ornithogalum mosaic virus* and Ornithogalum virus 2 in New Zealand

821 *P. Jones & Y. Arocha.* A natural infection of Hebe is associated with an isolate of '*Candidatus* Phytoplasma asteris' causing a yellowing and little-leaf disease in the UK

821 *Y. Arocha, B. Piñol, B. Picornell, R. Almeida & P. Jones.* First report of a 16SrII ('*Candidatus* Phytoplasma aurantifolia') group phytoplasma associated with a bunchy-top disease of papaya in Cuba

822 *Y. Arocha, B. Piñol, B. Picornell, R. Almeida, P. Jones & E. Boa.* Basil little leaf: a new disease associated with a phytoplasma of the 16SrI (Aster Yellows) group in Cuba

822 *M. S. Khan & S. K. Raj.* First report of molecular detection of an Aster yellows phytoplasma ('*Candidatus* Phytoplasma asteris') isolate infecting chilli (*Capsicum annuum*) in India

823 *S. K. Raj, M. S. Khan, S. K. Snehi, S. Srivastava & H. B. Singh.* '*Candidatus* Phytoplasma asteris' isolate associated with a little leaf disease of pigeon pea in India

823 *Y.-A. Lee, P.-C. Wu & H.-L. Liu.* First report of bacterial leaf spot of poinsettia caused by *Xanthomonas axonopodis* pv. *poinsettiicola* in Taiwan

VOLUME CONTENTS

Contents continued from outside back cover

816 *M. Daami-Remadi, H. Jabnoun-Khiareddine, D. J. Barbara, F. Ayed & M. El Mahjoub*
First report of *Verticillium dahliae* race 2 in Tunisia

816 *J. H. Zhou, B. Du, C. Q. Liu, S. C. Yang, Y. Y. Wang & Y. Y. Zhu*
First report of *Fusarium sporotrichioides* causing root rot of *Erigeron breviscapus* in China

817 *S. K. Raj, M. S. Khan, S. K. Snehi, S. Srivastava & H. B. Singh*
First report of *Tomato leaf curl Karnatka virus* infecting soybean in India

817 *Y. Martinez Zubiaur, Y. Muñiz Martín & M. Quiñones Pantoja*
A new begomovirus infecting pepper plants in Cuba

818 *J. Qazi, S. Mansoor, I. Amin, M. Y. Awan, R. W. Briddon & Y. Zafar*
First report of *Mungbean yellow mosaic India virus* on mothbean in Pakistan

818 *G. Parrella, A. De Stradis & M. Giorgini*
Sweet potato feathery mottle virus is the casual agent of sweetpotato virus disease in Italy

819 *C.-H. Huang & Y.-C. Chang*
Basella rugose mosaic virus, a new potyvirus infecting *Basella rubra*

819 *R. A. Mumford, B. Jarvis, V. Harju, N. Boonham & A. Skelton*
First report of *Broad bean wilt virus 2* in the UK: findings in foxglove and salvia

820 *S. Winter, A. Hamacher, J. Engelmann & D.-E. Lesemann*
Angelonia flower mottle, a new disease of *Angelonia angustifolia* caused by a hitherto unknown carmovirus

820 *T. Wei, M. N. Pearson & D. Cohen*
First report of *Ornithogalum mosaic virus* and Ornithogalum virus 2 in New Zealand

821 *P. Jones & Y. Arocha*
A natural infection of Hebe is associated with an isolate of '*Candidatus* Phytoplasma asteris' causing a yellowing and little-leaf disease in the UK

821 *Y. Arocha, B. Piñol, B. Picornell, R. Almeida & P. Jones*
First report of a 16SrII ('*Candidatus* Phytoplasma aurantifolia') group phytoplasma associated with a bunchy-top disease of papaya in Cuba

822 *Y. Arocha, B. Piñol, B. Picornell, R. Almeida, P. Jones & E. Boa*
Basil little leaf: a new disease associated with a phytoplasma of the 16SrI (Aster Yellows) group in Cuba

822 *M. S. Khan & S. K. Raj*
First report of molecular detection of an Aster yellows phytoplasma ('*Candidatus* Phytoplasma asteris') isolate infecting chilli (*Capsicum annuum*) in India

823 *S. K. Raj, M. S. Khan, S. K. Snehi, S. Srivastava & H. B. Singh*
'*Candidatus* Phytoplasma asteris' isolate associated with a little leaf disease of pigeon pea in India

823 *Y.-A. Lee, P.-C. Wu & H.-L. Liu*
First report of bacterial leaf spot of poinsettia caused by *Xanthomonas axonopodis* pv. *poinsettiicola* in Taiwan
